_____ (Signature of person authorized to sign)				BY _____ (Signature of Contracting Officer)		<b>22-Jul-2003</b>	

## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

**The following items are applicable to this modification:**

The purpose of this amendment is to extend the solicitation Closing Date and to answer contractor's questions as outlined below:

1. Make the following changes to the solicitation:

- a. On page 1 of the solicitation, Block 9, change the Closing Date to read: 16 Sep 03, delete 1 Aug 03

2. The following contractor's questions are hereby answered:

Question 1: I understand that a requirement of the proposal involves producing a sample part for submission. The drawing that I retrieved from the internet is #245-5750295, Rev-C

Is there a legible, complete version of this drawing available that could be mailed or e-mailed to me ?

The current version is illegible and missing information contained near it's borders, this puts offerors other than the incumbent at a disadvantage. The projected fabrication time for a sample part as shown would usually run 8 weeks, my window is 3 weeks.

Answer 1: A hard copy of drawing no. 245-5750295, Rev-C identified in the solicitation will be mail on 22 Jul 03, to all potential offerors who have provided me with their physical mailing address, per the synopsis's request. (The synopsis dated 27 Mar 03, instructed all potential offerors to email me their physical mailing address. The request for offerors physical mailing address was only for the purpose to help establish the solicitation's potential mailing list). For companies who did not provide me with their physical mailing, you may request a hard copy of the drawing to be mailed to you by emailing me at the following email:

([hinesmf@ncsc.navy.mil](mailto:hinesmf@ncsc.navy.mil)) Include your company's name, the point of contact, and your complete mailing address. See above for solicitation new Closing date.

Question 2: Is it possible to submit the technical and cost proposal by the indicated date, then follow with the sample part ?

Answer 2: No.

Question 3: Is the original submission date of 8-01-2003 still valid, or is there an extension available to qualifying contractors ?

Answer 3: See above for extension.

Question 4: Was there a requirement to submit a proposal on May 23 2003 based upon the presolicitation posted March 27 2003 ? I see the release of this version "Solicitation 01" was July 02 2003.

Answer 4: No.

Question 5: I am growing concerned that we might not be able to meet the Aug. 1 deadline for this quote. We are able to make the part requested, but we cannot start without a workable drawing. We have a large shop with about 160 employees working 24/7 and we could machine the part in a day. The problem is, the part requires heat treat, re-machining and two outside plating processes, both outside plating processes require masking. If I can get the drawing today, I can pull it off.

Answer 5: See above answers.

Question 6: While preparing our proposal we find that we need more time to fabricate the sample product, LCAC Cartridge Seal Propeller System in accordance with NAVSEA Drawing 245-5750295. The material required is not a normal stock item and must be ordered. Delays in shipping will cause us a delay in our machining schedule.

Answer 6: See above answers.

Question 7: We are working on this quote and proposal. One of the solicitation requirements is to send a, LCAC Cartridge along with the package, but the drawing cannot be reproduced with enough detail and quality to build it. (It is in word format) Could you please email a drawing in CAD format (we can accept just about any type)

Answer 7: See above answers.

Question 8: Does the QA plan in 2.1.1.2 (p.32) count against the page count (don't think so since it says to provide *with* the proposal).

Answer 8: No. The QA Plan does not count against the page count.

Question 9: Do résumés count toward the page count?

Answer 9: No. Resumes do not count toward the page count.
